How Health Informatics affects YOU

and your practice!!!

Demystifying Health Informatics

Health Informatics New Zealand (HINZ) are delighted to have the opportunity to paint a practical picture of what Health Informatics (HI) means to you in your practice and is offering an [HI stream](#) as part of the [“Conference for General Practice”](#) – a joint venture between the RZNCGP and General Practice NZ in September this year. You will hear about:

- Health Informatics: What it is and why it is important
- Patients First: What the GP2GP project means to GPs
- Storing and getting the data; Making it Easy
- Every day Health Informatics in General Practice
- Health Informatics Case Studies
- The logic behind the National Health IT Plan

[Full programme details](#)

PLUS...At t he HINZ Conference in November this year...

What is the [Clinicians' Challenge](#)

Win the [Clinicians' Challenge](#)! This is an exciting opportunity for clinicians and vendors to work together to use information technology to solve a problem that health professionals face in their 'day-to-day' practice. **Entries close on 9 September.**
